TERMS AND CONDITIONS APPLYING TO THE PACKAGED ICE ASSOCIATION OF AUSTRALASIA ACCREDITATION OF ICE MANUFACTURERS PLANTS

The Accreditation Certificate will be valid for a period of twelve (12) months from the date of issue unless otherwise revoked (eg : for breaches of the Food Act 1989 or its Regulations).

At any time during the twelve (12) months following the date of accreditation, you may use the accreditation rating and certificate to publicise your premises and your products. You must not refer to any accreditation rating or Accreditation Certificate that has expired or been cancelled.

As the Accreditation Certificate is only valid for twelve (12) months, any advertisement or promotional material must relate to the date the certificate was issued and the factory for which it was issued. Multiple factory owners must obtain accreditation for each factory.

Whilst the Accreditation Certificate remains valid, you guarantee to maintain the premises the same, or better, hygienic standards than were in place.

If the Packaged Ice Association of Australasia Inc believes that the certificate has been improperly used or the standards of cleanliness, staff's level of food handling, training or designated area for non-smoking have not been maintained, the Packaged Ice Association of Australasia Inc. reserves the right to request another accreditation inspection should it be considered necessary.

Entry into the program does not infer any relationship between the Packaged Ice Association of Australasia Inc. and the proprietor or operator of any premises.

The Accreditation Certificate relates to the standard of hygiene, level of staff training and any designated non-smoking area at the time of inspection only. By issuing the certificate, the Packaged Ice Association of Australasia Inc. does not imply that any or all of the legal or licensing requirements relating to the premises have been complied with.

I have read the Terms and Conditions relating to the Packaged Ice Association Accreditation, the use of the Accreditation Certificate and agree to be bound by those Terms and Conditions.

I look forward to receiving the accreditation certificate.
